Product Description

Ozone exists in the ozone layer region of the atmosphere to protect human beings from the sunlight. We also sense its fresh and clean smell after thunderstorms. Before ozone treatments, please do some cleaning in order to remove the source of the odors. Close the windows and doors. Make sure

nobody and no pets are in the room. It's highly recommended to set the timer and leave it in the room. Treatment time can be adjustable according to the room size and air quality. If you have no clues, you can start with 10 min, and increase the treatment duration or frequency for the next time. Allow at least one hour after treatment is finished before occupying the space. If necessary, open the outside windows and doors upon reentry. You can take out your ozone generator and schedule an ozone treatment whenever you suffer from odor issues.
